Dear Director !

My scientific work is seriously hindered due to political persecution, professional ban, and Nazi terror enforced by german criminals such as false university professors, officials of the Max-Planck-Society, and politicians¹⁻³. Not only these crazy Nazi criminals, but also the entire scientific community still ignores my request to end this dreadful witch hunt and mistreatment⁴⁻⁵. Now, I ask you to provide me with all resources I need to continue my work⁶⁻¹⁰. I want to change my living place and to obtain appropriate working conditions.

I hope you will not refuse to help me.
