As sole owner of the entire german wealth, I request the court-ordered eviction of persons named in my letter to the Attorney general of Florida, by police forces, that should enable me to dispose freely of the property which I own.

The forced eviction is inevitable for reasons explained in my letters of 16.03.2017, 9.04.2017 and 26.06.2017 that remain unanswered until now.

Therefore I apply for a writ of possession concerning said property.

A handwritten signature in black ink that reads "Andrej Poleev". The signature is written in a cursive, slightly slanted style.

Dear Attorney General !

Due to refusal to follow my direction of 16.03.2017, I would ask you to clear the building in the Max Planck Way No. 1, Jupiter, Florida 33458, by police forces.

Furthermore, in accordance with the Global Magnitsky Human Rights Accountability Act ¹ I authorize you to confiscate all assets and property of the FRG, of the Federal States of Germany and of german citizens, and to put confiscated wealth at my disposal. As justified before ²⁻⁷, I claim to be owner of the entire german property and total german assets.

I thank you in advance for your cooperation in this matter.

Dear Dr. Collins,

You are old enough to end now your scientific and administrative career. I recognize your scientific contribution and thank you for the leadership, as a consequence of it there are enough commendable scientists who can inherit your position and assume corresponding responsibilities.

Before you pass the chair, I want to remind you of your obligations. The NLM Technical Services Division and the Literature Selection Technical Review Committee have examined my journal and have concluded that the journal is not suitable for the NLM collection. My journal is not suitable for the NLM collection, but a lot of pseudoscientific journals, among them parasitic medical journals, as well as medical absurdity published in these journals, are suitable for the NLM collection¹⁻².

Such lack of selectivity by the evaluation of journals, suitable for the NLM collection, as well as serious mental deficits, demonstrated by the members of the NLM Technical Services Division and the Literature Selection Technical Review Committee, should have corresponding consequences: 1. All last named persons shall be suspended from their positions. 2. The review process shall be revised, as stated before³.
